

Grease for Al cable terminals, SK-AL

FEATURES & BENEFITS

- ☒ it has abrasive properties and during crimping remove any aluminum oxides that may have formed on the cable conductor and the inner surface of the tubular part of the cable lug
- ☒ it flows out during crimping, filling voids in the multi-stranded cable conductor, blocking air access to the cable lug and cable conductor
- ☒ it ensures stable electrical parameters crimped cable lug on cable conductor during use

Type	Index Ergom	Quantity in package [ml]
SK-AL (75 ML)	E05CE-01010200950	75
SK-AL (750 ML)	E05CE-01010200801	750
